

BALCO Skills Intelligence Platform — Full PRD

PRODUCT OVERVIEW

Product Name: BALCO Skills Intelligence Platform (SIP)

Version: POC v1.0

Audience: IT Team, Digital Team, HR Team, L&D Team

Purpose: Demonstrate the closed-loop skills development ecosystem — gap assessment feeds skills profile, training updates proficiency, manager validates, career impact is visible to the employee.

DESIGN SYSTEM

Colours

- Primary Green: #71B32F (Vedanta — use for CTAs, active states, key metrics)
- Dark Blue: #005298 (headers, sidebar, primary nav)
- White: #FFFFFF (all backgrounds)
- Light Grey: #F5F5F5 (page backgrounds, table alternating rows)
- Mid Grey: #D9D9D9 (borders, dividers, inactive states)
- Dark Grey: #595959 (body text, secondary labels)
- Black: #1A1A1A (headings, primary text)

- Green: #1E8449 (positive states, Proficient badge, response rate good)
- Amber: #E67E22 (warning states, Developing badge, response rate medium)
- Red alert: #C0392B (negative states, Not Demonstrated, response rate low)
- Traffic light: Green #27AE60 / Amber #F39C12 / Red #E74C3C

Typography

- Font: Inter (Google Fonts, free)

- H1: 28px Bold #1A1A1A
- H2: 22px SemiBold #1A1A1A
- H3: 18px SemiBold #1F3864
- Body: 14px Regular #595959
- Label/Tag: 12px Medium #595959
- Table header: 13px SemiBold #1F3864
- Button text: 14px SemiBold

Spacing

- Base unit: 8px
- Page padding: 32px
- Card padding: 24px
- Section gap: 40px
- Row height (tables): 48px

Component Style

- Feels like Microsoft Teams or Outlook — structured, sidebar navigation, top bar, content area. No heavy gradients. No decorative illustrations. Minimal shadows (box-shadow: 0 1px 3px rgba(0,0,0,0.08) only). Rounded corners: 6px on cards and buttons, 4px on inputs and tags.

LAYOUT STRUCTURE (ALL VIEWS)

Shell — persistent across all pages

Top Bar (height 56px, background #1F3864):

- Left: BALCO logo + "Skills Intelligence Platform" in white 16px
- Right: Role switcher dropdown (Employee / Manager / L&D Admin), notification bell icon, user avatar + name

Left Sidebar (width 240px, background white, right border 1px #D9D9D9):

- Navigation links — icon + label
- Active state: left border 3px #C8102E, background #F5F5F5, text #C8102E
- Inactive: icon and text #595959

Content Area:

- Background #F5F5F5
 - Max width 1200px, centred
 - Top: page title (H1) + subtitle, breadcrumb where needed
 - Content in white cards with 1px #D9D9D9 border
-

USER ROLES & NAVIGATION

Employee View — Sidebar Links

1. My Skills Profile
2. Learning Pathway
3. Feedback & Validation
4. Career Readiness
5. My Achievements

Manager View — Sidebar Links

1. Team Overview
2. Feedback Requests (badge showing pending count)
3. My Profile (manager's own skills + badge)

L&D Admin View — Sidebar Links

1. Analytics Dashboard
 2. Program Management
 3. Skills & Role Mapping
 4. Manager Engagement
 5. ROI Calculator
-

PAGE SPECIFICATIONS

PAGE 1 — EMPLOYEE: MY SKILLS PROFILE

Purpose: Employee's live skills profile. Core page of the platform.

Top Section — Profile Header Card (white card, full width)

- Left: Avatar circle (initials), Employee Name (H2), Employee ID, Department, Grade (e.g. M2), Reporting Manager
- Right side of same card: three stat boxes in a row
 - Gap Score: large number e.g. "34%" with label "Skills Gap" and traffic light colour (red if >40%, amber 20–40%, green <20%)
 - Skills Completed: e.g. "8 / 14" with label "Required Skills Met"
 - Profile Strength: circular progress ring, percentage, label "Profile Completeness"

Middle Section — Two columns

Left column (60% width): Skills Inventory

- Section label: "MY SKILLS" in 12px uppercase #C8102E
- Filter tabs: All / Safety / Technical / Functional / Managerial (pill tabs, active = #C8102E background white text)
- Table with columns: Skill Name | Domain | Proficiency | Source | Last Updated | Status
 - Proficiency shown as: filled progress bar (colour = green if 75–100%, amber if 50–74%, red if 0–25%) + percentage label + text level (Not Demonstrated / Awareness / Developing / Competent / Proficient)
 - Source shown as a tag: "Training" (blue tag) / "Manager Validated" (green tag) / "Gap Assessment" (grey tag) / "Certification" (purple tag)
 - Status: tick icon if meets role requirement, warning icon if below requirement, star icon if exceeds requirement
- Each row expandable — clicking shows the BARS behavioural anchor description for that proficiency level

Right column (40% width): Skills Gap Summary

- Section label: "ROLE REQUIREMENTS" uppercase
- Current Grade: M2 — shows required skills list with met/not met indicator
- Toggle: "View Next Grade (M3)" — switches the required skills list to M3 requirements
- Below: "Top 3 Gaps" — three highlighted skill cards showing skill name, current proficiency, required proficiency, and a "Find Training" button that

links to Learning Pathway

Bottom Section — Skills History Timeline

- Section label: "SKILLS HISTORY"
 - Chronological list, newest first
 - Each entry: date | event type icon | description | before → after proficiency
 - Event types: Training Completed (book icon), Manager Validated (tick icon), Certification Awarded (badge icon), Gap Assessment Updated (chart icon)
 - Show last 10 events, "Load More" link at bottom
-

PAGE 2 — EMPLOYEE: LEARNING PATHWAY

Purpose: Personalised recommended training list based on gap score.

Top: Stat row — three boxes: Total Programs Available | Programs Recommended for You | Est. Hours to Close Gap

Main Content — Recommended Programs (priority-ordered list)

Each program shown as a card (full width, white):

- Left: Program name (H3) + domain tag + Business Criticality tag (Tier 1 Critical / Tier 2 Important / Tier 3 Developmental in matching colours)
- Middle: Skills this closes — pill tags showing skill name + proficiency gain e.g. "Hazard Identification +50%"
- Right side: Duration | Mode | Vendor name | "Enrol" button (#C8102E)
- Below program name: "If you complete this, your Gap Score improves from 34% to 21%" in green text
- Bottom of card: thin progress bar showing "Profile improvement: +13%"

Filter bar above list: All / Tier 1 Critical / Safety / Technical / Functional / Certification Programs

Programs with BALCO names (use these exactly):

Crane & Lifting, Incident Management, Hydraulics Training, Confined Space, Machine Guarding, Power Engineering Course, Train-The-Trainer, ISO 14064 Lead GHG Verifier, 1st Time Manager

PAGE 3 — EMPLOYEE: FEEDBACK & VALIDATION

Purpose: Employee initiates and tracks manager feedback requests.

Top Section — Action Banner

If there are skills with no manager validation after 30 days: amber banner — "3 skills are ready for manager validation. Request feedback to strengthen your profile." with "Request Now" button.

Section 1 — Pending Requests

Label: "AWAITING MANAGER RESPONSE"

- Table: Skill | Training | Date Requested | Days Open | Status
- Status tags: Pending (grey) / Overdue (red, if >14 days) / Escalated (dark red)
- Each row: "Send Reminder" action link

Section 2 — Initiate New Request

- Dropdown: Select Training Completed
- Dropdown: Select Skills to Validate (multi-select, pre-populated from that training's skill tags)
- Text field: Optional note to manager
- Button: "Send Feedback Request" (#C8102E)

Section 3 — Validation History

Label: "PAST VALIDATIONS"

- Table: Skill | Training | Manager | Date | Rating (1–5 stars) | Outcome (Proficiency updated tag)
- Show all historical records, newest first
- Each row expandable to show manager's written comment if provided

PAGE 4 — EMPLOYEE: CAREER READINESS

Purpose: Shows how current skills profile maps to career progression.

Top — Grade Progression Bar

Horizontal stepper: M1 → M2 (current, highlighted) → M3 → M4 → M5

Below each grade: readiness percentage e.g. M3: 67% ready

Section 1 — Current Role Readiness

Large card:

- Left: Circular gauge showing overall role readiness %
- Right: Two lists side by side — "Skills Met" (green ticks) and "Skills to Develop" (red crosses with links to training)

Section 2 — Open IJP Readiness

Label: "INTERNAL JOB POSTINGS — YOUR READINESS"

- Table: Role Title | Grade | Department | Closing Date | Your Readiness % | Action
- Readiness % shown as a mini progress bar + number in traffic light colour
- Action: "Apply" if >70% ready, "View Gap" if <70% (shows modal with missing skills + training links)

Section 3 — PMS Evidence Export

Label: "PERFORMANCE REVIEW EVIDENCE"

- Summary of: skills gained this review period, manager validations received, certifications achieved, L4 self-reports submitted
- Button: "Export Skills Summary (PDF)" — static for POC, no actual function needed, just the button

PAGE 5 — EMPLOYEE: MY ACHIEVEMENTS

Purpose: Badges earned and learning stats.

Top — Stats Row

Four boxes: Total Trainings Completed | Skills at Proficient Level | Manager Validations Received | Current Streak (days)

Badges Grid (2×3 or 3×2)

Each badge: circular icon with colour background, badge name, description, date earned, grey outline if not yet earned

Badge list:

- Safety Certified — completed all Tier 1 safety programs (#C8102E background)
- Skill Champion — Proficient in 3+ skills in one year (gold)
- Certified Trainer — TTT certified + delivered 1 internal session (purple)
- Gap Closer — reduced gap score by 30%+ in one year (green)
- Validated Expert — manager-validated Proficient on 2+ skills (dark blue)

- Fast Starter — completed first training within 30 days of joining (amber)

Learning Timeline (bottom)

Month-by-month bar chart: trainings completed per month, last 12 months.

Simple bar chart, bars in #1F3864, hover shows program names.

PAGE 6 — MANAGER: TEAM OVERVIEW

Purpose: Manager's view of their direct reports' skills health.

Top — Team Stats Row

Four boxes: Team Size | Avg Gap Score (traffic light) | Pending Feedback Requests | Manager Response Rate (this quarter)

Manager Badge (top right of stats row)

If manager has earned the "Proactive Manager" badge: show it here as a small badge icon with tooltip "Awarded for >80% feedback response rate". If not earned: show "0 / 3 feedback cycles completed" in grey.

Main Table — Direct Reports Skills Overview

Columns: Employee Name | Grade | Role | Gap Score | Skills at Proficient | Pending Validations | Last Activity | Action

- Gap Score: number + traffic light dot
- Pending Validations: number badge (red if >0)
- Action: "View Profile" link + "Give Feedback" shortcut button

Clicking any employee row: opens a right-side panel (drawer, not a new page) showing that employee's full skills profile summary + their pending validation requests.

PAGE 7 — MANAGER: FEEDBACK REQUESTS

Purpose: Manager action centre for all feedback requests.

Top tabs: Pending (#) | Completed | All

Pending Tab — Card List

Each card (white, full width, 1px border):

- Top row: Employee name + avatar + grade + "Requested X days ago" (red text if >14 days)
- Training name + date completed

- Skills to validate — one row per skill with the BARS anchor description for reference
- Rating input per skill: 1–5 star selector (interactive)
- Text field: "Observed example (optional)"
- Overall transfer rating: 1–5 star selector
- Two buttons: "Submit Validation" (#C8102E) | "Save Draft" (grey outline)
- Collapsed by default if multiple pending — expand on click

Overdue indicator: If >14 days, card has left border 3px #C0392B and "OVERDUE — Escalation pending in X days" label in red.

Completed Tab — Table

Columns: Employee | Training | Skills Validated | Date Submitted | Avg Rating | Outcome

Rows clickable to expand full submission detail.

PAGE 8 — MANAGER: MY PROFILE

Purpose: Manager's own skills profile + their "Proactive Manager" badge status.

Same structure as Employee Skills Profile page but with an additional section at top:

Manager Recognition Card

- "Proactive Manager" badge (greyed out if not earned, coloured if earned)
- Progress toward badge: "2 of 3 feedback cycles completed on time this quarter"
- Stat: My Response Rate This Quarter — large number, traffic light colour
- Stat: Avg Days to Respond — target <7 days
- Explanation: "Complete 3 consecutive feedback cycles within 14 days to earn the Proactive Manager badge"

PAGE 9 — L&D ADMIN: ANALYTICS DASHBOARD

Purpose: Org-level effectiveness view. This is the CHRO-facing view.

Top — Org Stats Row (5 boxes)

Total Employees | Avg Org Gap Score | Programs Active | Manager Response Rate (this quarter) | Programs with Full ROI Calculated

Section 1 — Program Effectiveness Table

Label: "PROGRAM EFFECTIVENESS — ALL ACTIVE PROGRAMS"

Columns: Program | Type | Participants | BCS Tier | L1 Score (/5) | L2 Gain (%) | L3 Avg Rating (/5) | L4 Reports (%) | ROI (%) | Actions

- L1-L4 columns colour-coded: green if above benchmark, amber if marginal, red if below
- ROI column: shows number if calculated, "Pending data" in grey if not
- BCS Tier shown as coloured tag: Tier 1 red, Tier 2 amber, Tier 3 green
- Actions: "View Details" | "Edit Program"
- Benchmarks used for colour coding: L1 ≥ 4.0 , L2 gain $\geq 20\%$, L3 $\geq 3.5/5$, ROI $\geq 100\%$

Section 2 — Two columns below the table

Left (50%): Skills Heat Map

- Grid of skills vs departments
- Cell colour = average proficiency in that department for that skill
- Green = $\geq 75\%$, Amber = 50–74%, Red = $< 50\%$, Grey = not required for that dept
- Hover on cell: shows exact % and number of employees

Right (50%): Manager Engagement Trend

- Line chart, quarterly, last 4 quarters
- Shows org-wide manager feedback response rate %
- Target line at 80% in dashed red
- Points clickable to see breakdown

PAGE 10 — L&D ADMIN: PROGRAM MANAGEMENT

Purpose: Configure programs, assign skills, set BCS.

Program List Table

Columns: Program Name | Type | Vendor | Skills Tagged | BCS Score | Last Run

| Status | Actions

Actions: Edit | View Results | Archive

Edit Program Modal/Drawer

Tabs inside: Details | Skills Mapping | BCS Scoring | Results

Details tab: program name, type, vendor, duration, grade eligibility, mode

Skills Mapping tab:

- Table of tagged skills with proficiency conversion rule
- "Add Skill" button — opens skill picker

BCS Scoring tab:

- Four sliders (1–5) for each dimension: Safety/Compliance Criticality | Role Coverage | Skill Scarcity | Operational Impact
- Weights shown: 35% / 25% / 25% / 15%
- Computed BCS shown live as weighted average updates
- Tier auto-assigned below score

Results tab:

- L1–L5 data entry — upload or manual input
- Trendline chart across cohorts (placeholder for POC, labelled "Data from linked reports")

PAGE 11 — L&D ADMIN: SKILLS & ROLE MAPPING

Purpose: Define required skills per BALCO grade.

Left panel — Grade selector

List of grades: M1, M2, M3, M4, M5, W1, W2, W3 (use BALCO actual grades if known, otherwise these as placeholders)

Right panel — Skills required for selected grade

Table: Skill | Domain | Required Proficiency Level | Mandatory (Y/N) | Linked Training

"Add Skill Requirement" button at bottom

Editing a row: opens inline edit — dropdown for proficiency level, toggle for mandatory

Bottom section — Skills Master List

All skills in the system with: name, domain, how many programs develop it, how

many grades require it, avg org proficiency
"Add New Skill" button

PAGE 12 — L&D ADMIN: MANAGER ENGAGEMENT

Purpose: Accountability view for manager feedback response rates.

Top — Org Response Rate card

Large stat: Org Response Rate This Quarter — e.g. "68%" in traffic light colour
Sub-stats: Total Requests Sent | Responded Within 14 Days | Escalated | Non-Response

Department Leaderboard Table

Columns: Department | Manager | Total Requests | Responded On Time | Response Rate | Avg Days to Respond | Badge Earned | Actions

Sorted by Response Rate descending

Badge Earned column: shows "Proactive Manager" badge icon if earned, dash if not

Actions: "Send Nudge" button (grey outline) — static for POC

Escalation Log

Table: Employee | Training | Manager | Days Open | Escalation Level | Status

Escalation Level: Reminder / L1 Escalation (to reporting officer) / L2 (Darwinbox flag) / Non-Response

PAGE 13 — L&D ADMIN: ROI CALCULATOR

Purpose: Phillips L5 ROI calculation tool per program.

Program selector dropdown at top

Two columns:

Left — Cost Inputs

Line items: Vendor Fee | Participant Salary Cost | Travel & Accommodation | Materials | Internal Coordination | Other

Each line: label + input field (₹)

Bottom: Total Cost (auto-sum, bold, dark blue)

Right — Benefit Inputs

Line items: Productivity Improvement | Error/Rework Reduction | Incident/Accident Cost Avoided | Regulatory Penalty Avoided | External Training Cost Avoided | Retention Value | Other

Each line: label + input field (₹) + small "How to calculate" tooltip icon

Bottom: Total Benefit (auto-sum, bold, green)

Results Panel (below both columns, full width, dark blue background)

Four boxes in a row: Net Benefit (₹) | BCR | ROI % | Payback Period (months)

Below: Interpretation tag — auto-generated based on ROI %:

- 200%: "Exceptional — Industry benchmark exceeded" (green)
- 100–200%: "Good — Positive ROI" (amber)
- 0–100%: "Marginal — Positive but below benchmark" (orange)
- <0%: "Negative ROI — Review program design" (red)

Per-employee cost breakdown section below results

Input: Total training hours | Number of participants | Avg hourly cost (salary + training combined)

Output: Per employee per hour cost — auto-calculated

DATA MODEL (MOCK JSON — FOR DEVELOPER)

Employees: id, name, grade, department, reportingManager, skills (array of: skillId, proficiency, source, lastUpdated), trainingHistory, feedbackRequests

Skills: id, name, domain, description, barsAnchors (object with keys 0/25/50/75/100 each containing behavioural description)

Programs: id, name, type, vendor, duration, bcsScore, bcsTier, taggedSkills, gradeEligibility, I1Score, I2Gain, I3AvgRating, I4ReportRate, roi

GradeRequirements: grade, requiredSkills (array of: skillId, requiredProficiency, mandatory)

FeedbackRequests: id, employeeId, managerId, programId, skillIds, dateRequested, status, daysOpen, escalationLevel, managerRating, managerComment, dateSubmitted

Managers: id, name, grade, department, directReports, responseRate, badgeEarned, feedbackHistory

DEMO FLOW (WHAT MUST WORK FOR PRESENTATION)

1. Open as Employee (Nikita Singh, M2, HR) → My Skills Profile loads with gap score, skills table with proficiency bars, skills history timeline

2. Go to Learning Pathway → See recommended programs with gap improvement projections, click Confined Space → proficiency for Hazard Identification updates from 25% to 75%, gap score recalculates
 3. Go to Feedback & Validation → Click "Send Feedback Request" for Crane & Lifting → confirmation shown
 4. Switch role to Manager → Feedback Requests page → pending request from Nikita visible → submit validation with 4-star rating → back to employee view and see "Manager Validated" tag on skill
 5. Switch role to L&D Admin → Analytics Dashboard → program table with L1–L5 scores → ROI Calculator → enter costs and benefits → ROI % calculates live
-

SUCCESS CRITERIA

The POC is successful if someone who has never seen it before can understand what the platform does within 60 seconds of looking at it, all 5 demo flow steps work without errors, the UI looks professional enough that a CHRO would not dismiss it as a student project, and the connection between training → skills → career is visually obvious without explanation.
